Class – VII

GEOGRAPHY

Month	Unit	Topic	Sub-Topic
April	I	Interior of the Earth	Structure of the Earth Rocks and Minerals Types of rocks Rock Cycle
May	II Part A	The changing Face of the Earth	Endogenic Forces Plate Tectonics
June & July	II Part B	The changing Face of the Earth	Folding and Faulting Earthquakes Volcanoes
		PRE MID TERM	
August	II Part C	The changing Face of the Earth	Exogenic Force Work of River and Wind
	III Part A	Elements of Weather and Climate	Weather and Climate
		MID TERM	
September	III Part B	Elements of Weather and Climate	Atmospheric Temperature Factors affecting Temperature
	IV	Atmospheric Pressure and Winds	Atmospheric Pressure Pressure Belts
October & November	V	Humidity and Rainfall	Condensation Precipitation
		POST MID TERM	
	VI	The Hydrosphere	The water cycle Waves Tsunamis Tides Ocean Currents
December & January	VII	Human Environment	Temporary & Permanent Settlements Rural & Urban Settlements
	VIII	Life in Tropical Regions	Amazon Rain Forest
		FINAL
