

Echo

2021

Message from the Management

Dear Students

It is that time of the year, once more. A time when we realise that life at DPS Ruby Park Kolkata, has come full circle yet again. A time that holds promise, prestige and pride. A time that enforces our belief that every ending marks a new beginning. A fresh new start in the lives of our young pupils as they walk out of the protected confines of their second home only to embrace another world called life. A world that will often test them, challenge them and try to deter them from unleashing their true potential.

But fear not, dear students, for we have faith in you and confidence in the ideals instilled in you. We know for a fact that we have mentored you well and prepared you enough to look life in the eye and say, 'We can and we will!'

Will power and the desire to excel are the pre-requisites to penning a success story. And successful we were when it came to dealing with the crises triggered by the COVID pandemic. Determined to keep the 'virus' at bay, we plunged head-on to battle the odds. There could NOT be a lockdown when it came to education. We adopted new platforms and adapted the existing one to suit the current requirements. It was, after all, a lesson in LIFE.

Life will be your new arena, to showcase your learnings and skills as a leader, motivator and a responsible citizen. Always remember that Delhi Public School Ruby Park is forever by your side to encourage you each time you falter and to shower you with the loudest cheer every time you touch the finish line. So, beloved students, march ahead to meet your destiny and let the beautiful memories of this chapter continue to inspire and educate.

Here's wishing all of you a milestone in life.

OmDayal Educational & Research Society

From the Principal's Desk

As another year, a very challenging one, draws nearer to its end, another batch of bright, young minds prepare to embark on the voyage of life. As you children prepare to explore the world and conquer it, your Alma Mater, your guiding light, looks on with hope and faith towards a fulfilling future for all of you.

Delhi Public School, Ruby Park, has always envisaged a holistic and balanced education focussing on intellectual, physical, moral and social development. We pride ourselves on the transformation of the hesitant, unsure and hopeful little toddlers into the confident, competent and committed young men and women who walk out of the portals of their second home with their heads held high.

However, this year, things were a tad different what with the Covid crisis baring its ugly fangs. But the school community knows no fear. Not only did we identify the symptoms of this global challenge, but we were also the forerunners in anticipating the apprehension of learning losses among children home - bound during the pandemic and successfully combating these setbacks. Through a seamless transition to the online mode we 'virtually' tried to cater to all that our students needed for effective education and communication.

This institution has provided for you, dear students, the best of the tools available to hone your skills as well as inculcated ethics and values which will guide you to be dauntless in the battles of life. As you stand equipped to embark upon a new journey, remember all that you have imbibed so far. Be the good ambassadors that you have learnt to be as Dipsites and triumph over petty self-interests.

Echo has woven your cherished memories into the fabric of your Alma Mater to motivate you with happy reminiscences forever. Experience the journey called 'life' with all its joys and sorrows, dreams and realities, expectations and accomplishments.

May fair winds ease your journey as you sail on!

Joyoti Chaudhuri

Head Boy's Message

It has been twelve long years since we all entered the school with dreams and aspirations in our eyes. It has been twelve years but we never imagined that the last goodbye, would be the hardest for us.

It is overwhelming to realize that we have come this far together. Now, even though our roads diverge, the significant bond between us remains as strong. The memories we made amidst the red and white walls will forever be embedded in our hearts.

We never thought that even in the present scenario we would want to come back to school one last time and hope that the last bell would never ring. Our school has been a second home to us and forever will be so.

Rohan Bhatia

Head Girl's Message

“The future belongs to those who believe in the beauty of their dreams.”

Somewhere between reading those words on the green board in the school lobby every morning and each cycle of summer and winter uniforms, the years passed by.

Missing the last year of school has been hard on all of us. The last annual day, the last march past, the last ‘Chrysalis’, the last days we could roam the halls and cherish the memories in every corner of our red-white building.

The noisy halls, yelling after finals, whispering in libraries (and paying the price!), and maybe thinking foolishly that school would last forever, DPS has cherished us just as much as we have cherished it. And I’m happy to say that no matter where we all are in the future, DPS will remain firmly in place in all our hearts.

Yours truly

Anushree Tibrewal

Vice Head Boy's Message

Dear Seniors

Twelve years of a rollercoaster is coming to a bittersweet ending as well as a hopeful beginning in your lives.

You have always made the school proud with your achievements. You have stepped up and always helped us juniors when we needed you the most. You have nurtured us with the best advices as big brothers and sisters. You will always be an inspiration for all of us. Thank you for always being by our side in good as well as the tough times.

As you take your first step in the real world, here's wishing you all the best for your future endeavours on behalf of all the juniors.

Your school will always be 'empty' without you.

From a grateful junior

Bitan Mukherjee

Vice Head Girl's Message

A glance of the white-maroon building, the black gates, the path of endless joy to the classroom - the corridors, the busiest corner of our small world- the school canteen...a roller coaster of thoughts and emotions rush past my mind each time I utter the word "school".

Yes surely, putting together all that I want to say is one of the hardest things to do. Walking down memory lane, my seniors can very well relate - the journey that started with a seven-year-old teary-eyed child behind the seat belt, is in its last lap, a pit stop away from finally finishing the course. As the journey progressed, there were moments when arms were held out in joy or curled up in worry, but the path had its fair share of smooth driveways along with bumpy stretches with unpleasant speed-breakers! And yes, these speed breakers taught one to slow down and observe, learn and grow.

As a potter moulds a lump of clay carefully and skilfully, our school too has moulded our seniors to become strong and sturdy pots. It is now ready for the potter to thread off the ready pots from his wheel. But they have the strength and warmth gained ingrained in them and that's what becomes their edifice, their driving spirit for the rest of their life.

As my seniors are in the final lap of their journey, I wish the potter's wheel never stopped spinning. But I know for sure that the seven-year-old has now matured into a confident, strong, young teenager ready to take on the world.

Sneha Chakraborty

Vice Head Boy's Message

A goodbye may seem forever. Farewell is like an end. But in our hearts are memories and there you will always be.

Corridors will be silent without you, ramps will be empty without you, fests will not be the same without your assistance, sports days will not be half as much fun without you and we will all be incomplete without you. No number of words is enough to express our gratitude towards you.

You have been the solution to all our problems, you have backed us every time, you have been happier than us in our success, but most importantly, you have helped us believe in ourselves whenever we have failed. We cannot thank you enough for the impact you made on our lives.

It is hard to say goodbye, but as they say, every new beginning comes from the end of another beginning. We wish you the very best for a bright and prosperous future. May you get what you deserve from life!

Yours lovingly

One of the many teary-eyed juniors

Abhishek Tiwari

Vice Head Girl's Message

The year 2020 has been nothing short of an improbability marvel. 2020 wasn't the year when your bus was late. It was the year when you had network issues. It wasn't the year when you made memories in the school canteen. It was the year when you were in your kitchens, divided by mandates but united by Dalgona coffee and Banana bread. 2020 inevitably became the year when your first and second homes collided into one. When baggy pyjamas crawled up your legs and became uniform. When blackboards shrunk into 5-inch screens and questions meant staying mute, although that has always been the way.

So what, if you couldn't partake in classroom pranks or play hooky? 2020 will be the year you look back on for virtual shenanigans and an online farewell party. Regardless of the 'lasts' that were missed, we can't wait to see you take on the world.

Our hearts ache to bid you adieu, but they are also filled with pride to see how far you have come. You all will most definitely be missed, no matter how you graduate.

Urmi Maitra

DPS embraced me at a three year old and I shall be kidding it when at an adult. Only my test-stained face will have remained unchanged. This school has made me who I am today. It has taught me how to stand up for myself even if it means standing against the world. Most all, it has given me a family and for that, I am ever grateful.

Manisha Bhattacharya
XII-Y

The end of a school year always has a particular feeling to it. But this year, the feeling is amplified because there won't be a next year. The two years I spent at DPS felt fast and slow at the same time—the bright new always felt like it was in the rearview. Words will never be able to truly express the importance that the memories I made in these corridors, held in my life; the ideas that stemmed in the classrooms while chatting with my fellow dipsters—old and new alike and the delightful times that I have spent interacting with my teachers at this institution.

Abantika Duttagaur

A MEMORABLE DAY

It is well said "The best memories of our life can never be captured in pictures they are always captured by the heart."

Ishanee Chatterjee
12 P Roll No. 13

Having joined DPS Ruby Park school, I have experienced good memories such as making good friends, being fortunate to get class teachers like Nirupam Sir and Suprabhat Sir. Among various good memories I would like to mention, "The Children's Day" celebrated in our school. On that day all of our teachers took care of all of us very nicely. On that day school really felt like second home and teachers like my family members. They shared with us their life experiences, which were very interesting. We witnessed our teachers dancing and singing which brought happiness to all of us. For some time, the it felt like we had no stress or tension regarding studies, we were just kids enjoying to our fullest, the whole world didn't seem to matter. On that day we felt our importance. In this pandemic situation, I nurtured these memories which will go long way in my future.

Down the Memory Lane
Sometimes a short walk down the memory lane is all it takes to appreciate where you are today. — Susan Gale
I remember vividly my first day at my school. The day passed quite pleasantly. By the end of the day, during disposal time, I was finding it difficult to locate my school gate from where the bus was leaving and fortunately I spotted mine. This day would always be a part of my memories associated with school.

12 years. From looking at unfamiliar faces with moist eyes, gulping lips and pounding hearts to looking back at familiar faces, we all grow up. From the heartwarming memories of singing school songs with friends in the lunch break, to counting the number of friendship bands, resulting last minute for examinations in corridors to facing the day of PTMs, it was our school, DPS Ruby Park, that made us, scattered stars, into a beautiful constellation. Today, as we are about to cross the threshold of our second home, we have bigger problems to ponder upon (than just a broken nib of a pencil stuck in a sharpener). We sincerely are grateful towards our alma mater for preparing and guiding us to face the future bravely. Due to this ongoing pandemic, we might not be able to connect with each other like the good old days, but the fact proved that our bond can transcend the barriers of distance and time. We learnt, we enjoyed and most importantly, we experienced.

"How lucky am I to have something that makes saying goodbye so hard"

- Winnie the Pooh

Aditya Chatterjee
12 'A'

REFLECTION DOWN THE MEMORY LANE BASED ON YOUR SCHOOL DAYS AT DPS

DPS is not only my school, but also my second home because of the marvelous teachers who taught me wholeheartedly, leaving no pages unturned to bring out the best in me. However, without my friends who from day one supported me and made me realise my true potential, this two-year long journey in DPS wouldn't have been so special.

- Aditya Chakraborty
(12, P)

Reflections

They may have gone in one direction and remained another. When I think of the last five years I spent in the hospital I remember the time we decorated the Christmas and stained our uniforms in dirty colors impossible to have used as projection, and the chance the laboratory technique Malabarba would be jealous of.

It ran more but this segment has a word limit so I'm leaving the thanking all my teachers, my friends and the staff, all of whom have led me to believe that happy memories never fade, likewise ones eventually disappear and all of them together make up us who we are and shape who we will become.

- Anvisha Choudhury
Roll no. 1
12 A

Reminiscence

Regardless of how long we have
waited through the featureless yellow
and white corridors, it is hard
to forget the first time we walked
into our classes filled with unfamiliar
faces and anxiety in our hearts.
However, in the blink of an eye, our
friends turned into our pillars of
support, the connection after every bell
a familiar noise and the teachers
became our trusted guides. The postscript
may have concluded but the time to
venture out and fill in the next
of our stories has only just begun.

MITRO GHOSH 12-2

Reflection about the memory lane:

In the general classes, I discovered nothing on the camp for the use of the school, and then finally saw all of them. I went and told each a truth that was true. At the school, we were given a lesson and reading in English. We were given a lesson and reading in English. We were given a lesson and reading in English.

And the most memorable result of what about that
should be actually used (or about \$). It was all
that about that, and that was playing a role
and then you and the other about \$, so that
on the other hand to getting about \$, so that
the other hand to getting about \$, so that
getting about \$, so that
the other hand to getting about \$, so that
the other hand to getting about \$, so that

[illegible]

I'll always be proud that I was a part of Saint Paul School, Holy Land, Canada. I'll always be grateful to the teachers who inspired me to be the person I am today, and I'll be able to be really happy.

However, there's one thing left to say. How many of us have something that makes us feel good about our name? Or maybe we should be thankful for everything. We're all here again.

- David Howard (1985)

- 842041-2. Flavored. (18.9)

When I had joined his school 4 years back, I had never expected to make such beautiful memories that I would cherish throughout my life. Apart from that, I also learnt tough life lessons which helped me grow as a person - strong and mature. I have been fortunate to get some of the best teachers and friends who have made me what I am today. As the journey of my school life ends so ~~soon~~ I should tie this note with a genuine gratitude for everybody who made my life beautiful. Hoping to see you all with grey hair and fat bulges in the 80th reunion.

- Anjini Mitra
XII - W

Down the Memory Lane

- By Arunprabha Sengupta, IZK

I reminisce of my first day at school,
quite small and a bit scared, in a new room
full of unfamiliar, little faces whomine.
They would, however, become my friends,
companions and my family, here at my
second home, where I would come every day
for 14 years. Having through several
dear moments throughout the years, the
thought of leaving this place forever,
with all its wisdom and friendship, makes
me rather sad. I, however, am ready
along with the blessings of my teachers
and friends, to face the world and
live it over.

Unity was just an idea, more like an abstract idea. I came to my section on class 11 full of uncertainty. I was befuddled just thinking about fitting in a group with unfamiliar faces I just know 2 of my classmates and being the outcast that I am. I felt far removed within for weeks. The magic commenced when we all started discovering our deepest secrets one by one. The day of unity came into the picture by the middle of the 1st year in highschool as did when we stood by each other, in against anyone who tried to us had unfairly persecuted. Even though the immense affliction caused due to the year 2020, we all are somehow still one group and stand together.牢不可破的friendships like this is all that we remember later on.

Name: Alavi Ghasemi
Class: XII Section: B

"Alex - clay "Yarvon Dosti Badi Hi Kareen Hai".

"Alexa, play 'Yamson Dosti Badi Hi Khasen Hai'.
This line perfectly explains how all of us feel - from Accounting Equations to Dissolution, from being a frontbencher to a backbencher, from eatingiffin in class to going for canteen breaks between two subsequent classes, from being late for the bus to joining the zoom class and going back to sleep, it has been an amazing journey. Like mind-wind how school benches are now ~~are~~ our second beds, sleeping during class was the best refreshment. I might forget all these little things, but I will never be able to forget the 'Chinese Samosas' and the Domino's Pizza from Chambers mall. Our teachers used to give us the details of all projects at the beginning of the year but doing it a day before the submission date was our superpower. Each and every moment spent in school will have a special place in our hearts. The only thing which we will be able to say is, "Kha din the woh!"

- Bhauna Kha-banda, XII W

Down this memory lane

They say, all good things come to an end and I guess the saying stands true after I've experienced these two wholesome and incredible years of high school with some of the finest teachers and a highly competent and the most affable class for which I shall always remain grateful.

A FIGHT WITH THE INEVITABLE

— *Magha Abecchin*, XII (2)

As I stand on this last day aghast
Realizing these memories shall soon be a distant past
These corridors of both love and pain
These windows of the wooden frame
These classrooms which I had walked by
My friends and their mischiefs that made me lie
The chalk which lies there somewhere
The soft hush of the leaves garden
The mellow twilight of the afternoon
Reminded me of a haunting tune.

As I turn towards my class in a last attempt
The doors slam with hysterical intent
Close in on me with a melancholy beep sound
As I hang on there with a certain demand
And then I hear through the closed wooden doors —
"Adios Adios Adios"

Down the memory lane we walk,
From one to twelve according to the clock,
Memories which are solid rock
Will be cherished for long...

by - Armita Das, Class XII,
Section - E

REFLECTIONS

At this junction of my life, when it is time to bid farewell to my school life a walk down the memory lane of my school makes me feel nostalgic. The first day at school I remember I was scared and hesitant, but with time I grew confident and developed an affection for my school. It was not just the school building, the classroom, the teachers or my friends but the composite effect of all these which could not be overstated. Physically and mentally I grew up with my school. Everything was so imperfectly perfect. The fights with my friendly rivals, laughs I shared with them while growing up together, the guidance, support and warmth received from the teachers, all these memories are cherished in the inner chamber of my heart. I don't know what the world outside has in store for me, but I will always miss my school days which till now happens to be the best part of my life.

MADHULKA RAKSHIT
CLASS-XII SECTION-F

Reflections down the Memory Lane

In a world of commotion ^{and} silence I sit in a room - busy working on my laptop. In an environment of virtual reality, my mind revolves around these shocking moments of my life for fourteen years in school.

I remember - a little boy in a white shirt ^{with} black shoes who had stepped in the classroom with a feeling of fluttering excitement and now, he has moved several steps forward to realise what life truly is. A photograph taken on the school ground upon my class teacher of all classrooms rejuvenates my soul; it replenishes it, refreshes my transcendental living - and I look forward to my goals in life.

- Mayukh Mukherjee
class XII C
Roll No - 16

I had an astounding experience studying in DPS Ruby Park for the last 12 years. I got to learn numerous things during this long period. Supportive teachers, world class education and innovative facilities made my school life unique and memorable. I am highly grateful to the school authority for boosting my career and giving me an excellent childhood to be cherished forever!

- SAMRIDDHA MUKHERJEE
12; V

Writing a farewell note! Unbelievable. Fourteen amazing years have indeed flown by. It means- no more rushing inside school at 7:25 am, no morning assembly (half-asleep), no long break 'adda', no mess-bunks before exams, no Messi-Ronaldo-IPL Rivalry. Goodbye and thank you, my alma mater, for giving me such fond memories. I move on to reinvent my future leaving my childhood with you.

Satyik Ghosh, Class-12E, Roll No.- 28.

Generally, the first and the last day of the school always remain special in a student's life. But for me they are remarkable.

In 2006, when I began my journey from Nursery and high school got its new location at 24 Shanti Path and when my journey is coming to an end that is in 2020, we are going through the situation when 'SCHOOL BUILDINGS ARE CLOSED, SCHOOLS ARE NOT CLOSED', due to the pandemic situation of COVID-19.

To me Delhi Public School Ruby Park is not merely a name of a school but the place where I literally grew up. It has made me what I am today and proven to be the stepping stone to whatever I will achieve in life.

There are no words of gratitude enough to express what I feel for this institution. Not just in studies, but during the co-curricular activities I had all the moments of dedication, hardwork, joys and fun. I wish to cheerfully bid adieu to all my respected teachers, staff members of this school and to all my friends who have been always a support system for me during this 15 years of my journey in Delhi Public School, Ruby Park. Thank You and Good Bye.

Shirish Ghosh, XII - I

Reflections

- Saarthak Anand
XII - N

On June 12, 2023, if someone would've told me that a property of two and a half buildings would essentially become a part of me, I would've laughed. Yet, here I am, DPS was never less than a home for me. 74 fast like family (because all Indians are my brothers and sisters). Some days we would feast on cantin and on other, we would divide our cup of tea into 4. Some days we would continue to play, and on other, we would be tired to even do the morning prayer. Maybe this was meant to end this journey, for us, but if given the opportunity to do it all over again, I wouldn't hesitate for a bit to accept.

The quiet grips my heart harder everytime I think how this beautiful journey is about to witness its end without me being able to even cherish the last few days of it. These red and white walls have seen me grow from the carefree toddler I was to the responsible adult I am today and no words can ever be enough to portray my gratitude for it. DPS Ruby Park with its huge campus and high walls, with its exceedingly high number of floors and corridors has always been a maze to me -

A MAZE I NEVER WISHED TO ESCAPE!

- Anirudh Mishra XII-V

from fighting with friends for tiffin, singing in the bus while going on an excursion to bunking classes because you forgot to bring your books, we all grew up...

13 years, almost 14 that I've been in this school has been wonderful. I didn't even realise that I was making memories as I was having so much fun! These were the best days of my life and I will miss them dearly.

THINGS END, BUT MEMORIES LAST FOREVER

Shreyaa Pal (XII-E)

I have been a part of this institution for the past 10 years and DPS Ruby Park is my second home indeed and I am sure it's the same for all of us. I remember there were times when we would get up in the morning and make excuses just so we could bunk school and sleep at home for a little longer time, but this year changed everything and if someone would ask what do we really wish for? I am sure each one of us would wish to go to school and relive those beautiful days for one last time and see our teachers and get scoldings from them for that one at three and this time we wouldn't complain because we know at the end of the day they want the best for us and we can't thank them enough for guiding us throughout this beautiful journey.

- Shreyaraj Vidyarthi
12-X

I did not like the school initially, most probably because I was missing my previous school but now it is completely different. Yes! DPS has given me memories worth treasuring. I have got some of the best people in my life - amazing friends and teachers. The shared laughter, making snacks out from the tiffin box, the noisy corridors during breaks, trying out our own experiments in the lab, some scoldings for our behaviour and the tension on our faces before exams... are all unforgettable. Thanks to our teachers for teaching us online with the same dedication and energy despite the "digital exam" we made - network issue, mic not working - you know right!

The journey with DPS has been great.

Thank You!

Saurabh Chandra

These 13 long years, from those morning prayers, arriving late to class, silly fights, excursions, eating under the benches, being punished, last minute preparations, group photos to wearing our school uniforms and meeting our teachers and friends for the very last time, to looking back at our classrooms, corridors and playgrounds with a big smile but with tears in our eyes and memories in our hearts, it has been a complete rollercoaster ride. I'll always be proud to be a DIGITE! Today, I am grateful for everything this school has given me over the years.

- Soumya More
XII - T

DOWN THE MEMORY LANE

I was thrilled on the first day of high school. Gradually, I made some wonderful friends. Times spent in the classroom, laughs shared in the laboratories, recess time fun, fights and then making up, stress but happiness of academics is something that'll provide serotonin for a lifetime to everyone. Few words are unable to explain the remarkable two years, but every good thing comes to an end like senior year at high school, giving us tons of memories to cherish.

- Divyanshu Keshari
(XII-L)

Down The Memory Lane

Unknown smiles, loved hearts, unknown faces and the journey starts. Little amazing new friends, few of the sweetest moments were spent with the inspiring teachers and more inspiring teachers. Perhaps before I had never met. From daunting homework to looking the known corridors. And before we realised, two wonderful years in DPS had passed.

- Anurag Pal
XII-B

Down The Memory Lane

The light colored building, which seemed so imposing at first, has now become my second home. It is difficult to believe that my days of studying, organising events, and moving around the school which I feel like a second home, are now behind me. As I bid adieu to the building, I am leaving behind long memories, my time at DPS Ruby Park, and a journey which I will cherish throughout my life.

- Anurag Pal
XII-B

Reflections

Reflections

Happy Carefree. Growing up. Failure. Learning. Achievements, these words signal my mind to make a mental picture of the 8 storey red and white building where we spent the golden years of my life. Indelible edifications, illustrious memories, irreplaceable companions, the list of that school life has offered me, is endless.

SRISHTI RAY SARKAR (XII-D)

I remember my first day in DPS. I had felt like a 10-year-old again, terrified of going to school, anxious amongst new people. The bustling corridors and the multitude of people passing in from all sides was scary. No doubt but over time I grew to find comfort in the same. I made amazing friends, embarrassing memories and was part of so many stories worth telling. In just a few days it became like home.

Same - Swarnali Chatterjee
XII-J

'Down the memory Lane'
- Sudiksha Thakur (XII-N)

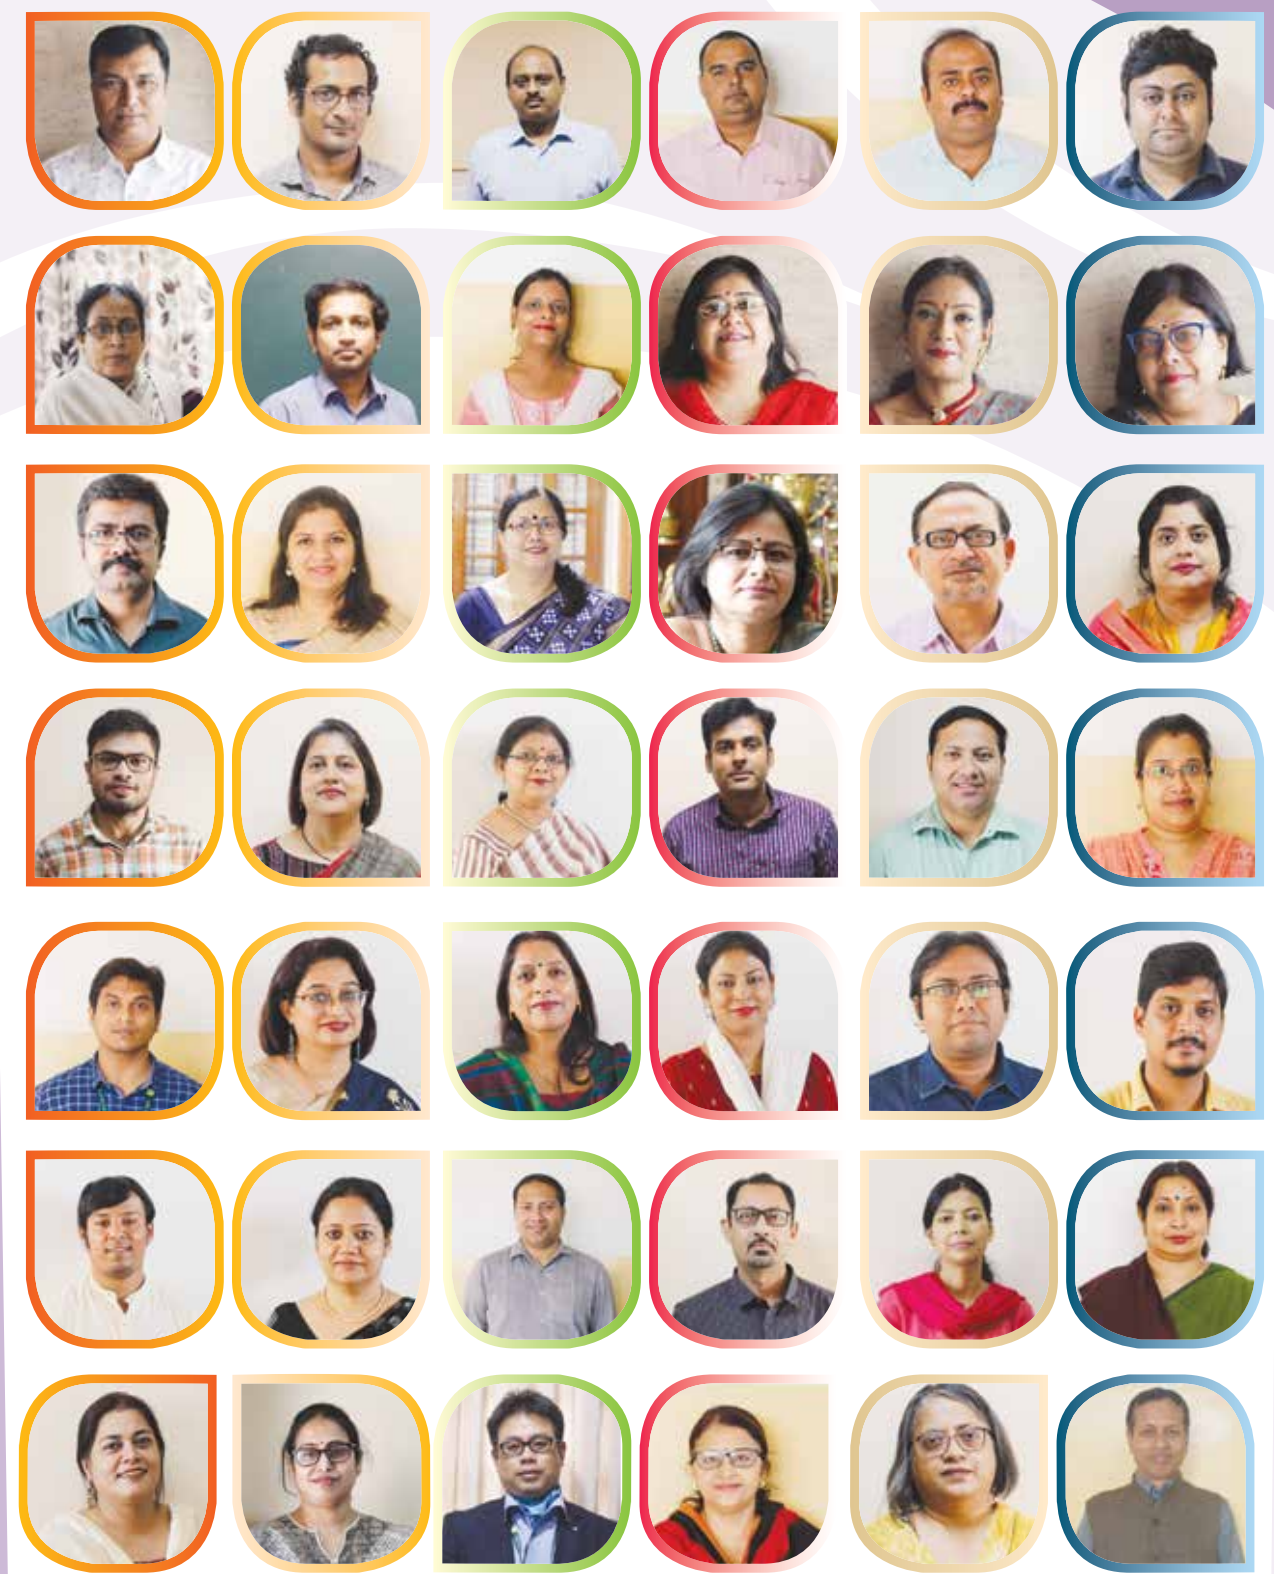

Clutching the fingers of my mother with a small bag on my shoulder, the attraction inside the 'Hijra'. I walked into the junior school, that is how I remember the first of my schooldays. Slowly I started liking my classmates, but felt sad at the end of each year when the section changed and I had to sit beside someone new. The school bag became heavier, classes hectic and now with online classes it feels like I am back to square one. Today as I prepare for my last battle on behalf of my alma mater, to appear for the boards, memories flood back, smiles of tears flow simultaneously. I bow before thee for all I have learnt to be valued through all my life.

The Blissful Fish Market
- by Vaishnavi Sajwan, 12%

As my goof-ups turn into anecdotes, I bid adieu to my teachers who taught me to confidently act like a fool, but stay genuine, to be carefree, but not careless, that we are bubbling cauldrons of potential (funny, how we haven't realised it yet) and lastly, fun. So seriously so, but life is so damn seriously not so because it doesn't seem serious about us too.

DELHI PUBLIC SCHOOL, Kirti Park. There are just words, they're an emotion, an emotion that has made us feel so attached to that building that we will be eager to see this year from within the school but in the morning to catch the AC-24 to reach school before 830 from participating in all inter-school tests to not missing any of the inter-house fest from preparing for exams in the morning to getting happy that exams were finally over celebrating teacher's day, children's day and all other special occasions in school. Always made us happy! The school is our second home and the teachers being our second guardians. The amount of memories school has given us are countless but enough to always make us smile! :)
